4. MODIFICATIONS TO THE APP "COFEM INSTALLERS".

4.1. The User and the Licensee know and accept that the App "Cofem INSTALLERS" can adapt to technical developments and improve accordingly; COFEM may cease in the development of the App "Cofem INSTALLERS" contracted by the Licensee and, if necessary, COFEM may also develop different ones. The Licensee may choose to allow the User to stop using the App "Cofem INSTALLERS" or to contract a different solution according to the migration policy that COFEM establishes, to all of which the User agrees to accept in any case, adapting their equipment and the App "Cofem INSTALLERS" to a new solution if necessary. The migration to a new solution may or may not be free depending on the resources that COFEM has destined for the research and development of a new solution, as well as depending on the degree of difference in the quality of the solution in respect to the one replaced, in which case it will be conditioned to the corresponding payments that the Licensee must make to COFEM.

4.2. The User accepts all these changes without notice and without demanding any compensation to the Licensee or to COFEM. COFEM in any case is only obligated to notify such changes to the Licensee, who will accept them without demanding any compensation.

4.3. Also, the User and the Licensee must keep in mind that the services and/or the characteristics of the Central Units and Fire Alarms "Lyon", "Zafir" and "Compact Lyon" and/or the software "Easy CoNet", the App "Cofem Guard" and/or the App "Cofem INSTALLERS" may have been modified to adapt to technological developments, hence, they might have to change to a new version of the App "Cofem INSTALLERS" or to a new solution established by COFEM.

4.4. If the Licensee changes to a new version of the App "Cofem INSTALLERS" or to a new solution of COFEM, to update an older version of the App "Cofem INSTALLERS" or to upgrade to the new solution of COFEM, the updated version or solution will be the only one a User may use, accepting the terms and conditions of the documentation, the material, the specifications, and the help screen that accompanies the new version of the App "Cofem INSTALLERS" or the new solution of COFEM. The Licensee and the User will also be obligated to eliminate any corresponding material of the older version of the App "Cofem INSTALLERS".

4.5. The User and the Licensees acknowledge and accept that COFEM may provide updates or additions to the App "Cofem INSTALLERS" that download automatically, without COFEM being obligated to this by default.

5. PROCEDURE FOR THE NOTIFICATION OF DEFECTS IN THE APP "COFEM INSTALLERS" AND WARRANTIES

5.1. The User and the Licensee are informed that the App "Cofem INSTALLERS" will function substantially as described in the help screen that accompanies it. COFEM does not guarantee that the App lacks defects, will function without interruption, meets the expectations of the User, or will function in combination with any third party hardware or software, or that all errors in the App "Cofem INSTALLERS" will be corrected.

5.2. If there is a defect in the App "Cofem INSTALLERS", as well as in the descriptive documentary material of the same, the User commits to document (and in his case, to reproduce) the defect, which he shall bring to the attention of COFEM, through the Licensee, as soon as possible. COFEM shall be informed by the Licensee within two (2) days of the detection of the problem. Otherwise, COFEM shall be exempted from any responsibility or duty of guarantee within the maximum permitted by mandatory laws.

5.3. COFEM may solve the problems that affect its substantial functioning, using reasonable means and time limits. The above notwithstanding, COFEM is not responsible for the differences that external technical resources may cause to the correct functioning of the App "Cofem INSTALLERS".

5.4. For a defect in the App "Cofem Installers" to be sufficiently material to cause COFEM to be obligated to repair or replace the App, the defect should make the App (as long as it is used in a manner permitted in the License and according to the help screen that accompanies the App) work in a way that is so divergent from what is established in the specifications that it would make it unsuitable for the purpose described in the description of the same. Also, if the required functionality can be achieved by the User or the Licensee in an indirect or an alternative form that circumvents the problem, then the damage shall not constitute a defect that gives rise to the obligations of COFEM under the above warranty.

5.5. Neither the User nor the Licensee shall carry out any modifications or repairs by themselves or allow such modifications or repairs to be carried out by any unauthorized third parties. When COFEM or the Licensee requests it, the User will support them in the analysis of the causes and the conditions that cause the defect, as well as the development and correction codes test or an indirect or alternative solution.

5.6. The only remedies in the event of defects in the App "Cofem INSTALLERS" are those expressed in the warranty mentioned above. The App is licensed to the Licensee and permits the authorized User of the Licensee to exercise the user rights of the Licensee with its current features and "as it is", without any class of warranty, aside from the aforementioned. This express warranty is granted in the place of other warranties, explicit or implied, whether of fact or derived from the law, regulations or otherwise, including warranties, terms, or conditions of merchantability, suitable for a particular purpose, satisfactory quality and non-infringement, each of them expressly excluded. The Licensee and the User recognize that the distributors or agents of COFEM are not allowed to provide any guarantee of any kind nor manifestation in connection with the use, suitability, or the results of use of the App "Cofem INSTALLERS", or in connection with its precision, accuracy or reliability, and none of the guarantees or manifestations have any effect, other than those set out in this License. It is the responsibility of the Licensee to ensure that the App "Cofem INSTALLERS" meets their needs. The User and the Licensee cannot transfer the responsibility to COFEM - or the application of warranties - for all the risks of implementation and results obtained by the App, nor for its suitability for the programmed and expected use.

5.7. It is understood that COFEM is released from its obligations under the expressed warranty when the defect has been caused by circumstances for which COFEM is not responsible, including, without being limited to: (a) a breach in the conditions for the use and operations contained in the description of the App "Cofem INSTALLERS", and in particular of the help screen that accompanies it; (b) failure to comply with the provisions of this License; (c) unauthorized modification or interference with the App either on part of the User, the Licensee or a third party; (d) errors in the use of the App "Cofem

INSTALLERS” on the part of the User, the Licensee, or third party personnel; (e) influences from systems or programs that have not been supplied by COFEM or the Licensee; (f) use of a computing device that is not a Specified Computing Device.

Without prejudice to what may be established in this LICENSE AGREEMENT as the legally permitted limitations to the mandatory laws that govern them, it is expressly established that the User and the Licensee can perform all that is determined by said mandatory laws.

6.3. Neither the Licensee nor the User will delete from the App “Cofem INSTALLERS” any reference to the copyright, trademark or other proprietary rights, nor will they cover or obscure, in any manner, any of these references, nor will they plagiarize them in other solutions. The Licensee and the User shall take all reasonable steps to prevent any use, reproduction, sale or publication of the App “Cofem INSTALLERS” that is unauthorized or the unauthorized access of the same.

6.4. The User and the Licensee will jointly indemnify COFEM and hold it harmless for any loss, damages, claims and expenses, (including, without being limited to, reasonable legal expenses for the defense and legal representation at trial) related to the non-compliance on the part of the User or the Licensee of this License.

7.1. COFEM is not committed nor responsible, to any person or entity, in respect to any damages allegedly caused by the use or non-use of the App “Cofem INSTALLERS”, both directly or indirectly, including (without being limited to), interruptions of work, economic loss, or loss of profits expected as a result of their use.

7.2. The Licensee and the User are responsible for the use of the App “Cofem Installers” made by other people, having been warned above of the obligations concerning the prohibition of sharing the use of said App. The Licensee and the User assume any harm, damages, and/or costs that may arise from this, and specially, from the incompatibilities between the App or its updates, and the software owned by third parties that the Licensee or User may have installed on their device, as well as other problems that may originate from the interaction between both programs and, in particular, from sharing the use of the App “Cofem INSTALLERS” with third parties in non-compliance with the instructions and obligations of this License.

7.3. The Licensee will have the exclusive responsibility to ensure that, before using the App “Cofem Installers”, the User possesses the necessary knowledge for the proper installation and use of the App, as well as the terms of this License. 7.4. To the extent permitted by the applicable law, COFEM shall not be liable before the Licensee nor before the User for any loss or damage, whether direct, indirect or consequential, including but not limited to, the loss of profits, unrealized cost reductions, loss of data, increased costs on part of the Licensee and/or the User or any other financial loss, resulting from, or related to the purchase, license, use, failure or interruption of the operation of the App “Cofem INSTALLERS” and the services COFEM offers in respect to the same. The preceding limitation of liability shall also apply in the case that COFEM has

7.6. The validity of the warranties and responsibilities, or their limitations, established in this license of use, will be subject to the provisions made by the legislation that affects them in the different States and/or Jurisdictions.

7.7. In any case, COFEM shall be released from their responsibilities before the Licensee and/or the User, if the App "Cofem INSTALLERS": (a) has been modified by the User and/or the Licensee; or (b) is being used with other programs or data and this combination has led to the infringement of the right of a third party; (c) has been used in a computer device that is not a Specified Computing Device; or (d) has been used and applied under conditions other than those specified in the description; or (e) has been used for purposes other than those for which it has been licensed by this License.

8. RESOLUTION

8.1. Without prejudice to any other right of withdrawal provided for in this License, either party shall have the right to resolve this License at any time and effective immediately in the case of a breach of a contractual obligation by the other party, including without being limited to, breach by the Licensee or by the User of their contractual obligations to COFEM or its distributors or agents, especially in the contractual relationships that are referred to in clause 8.5, if the offending party does not remedy the breach within thirty (30) days of being notified of the matter in writing.

10.2. If the Licensee does not wish to be bound by the License after such modification, they can resolve it by prior notice to COFEM before it being enforced; if the User does not wish to be bound by the License after such modification, they must stop using the App "Cofem INSTALLERS" and alert the Licensee.
